1. Corporate Profile & Vision

Who is the parent company behind the brand?

Croma - A TATA Enterprise is a subsidiary of its respective parent conglomerate, dedicated to bringing the latest in technology to the Indian consumer. We aim to provide a seamless omnichannel experience.

How many stores do you operate across India?

Currently, we operate over 400+ large-format stores across 120+ cities in India, ranging from Tier 1 metros to Tier 3 emerging markets.

What is the 'Green Electronics' initiative?

We are committed to e-waste management. Customers can drop off old electronics at our designated 'E-Bins' in-store for responsible recycling.

2. Pre-Purchase & Store Experience

Can I book a personalized shopping assistant?

Yes, we offer a 'Personal Shopper' service where an expert is assigned to guide you through technical specifications based on your home layout and budget.

Are pets allowed in the stores?

While service animals are always welcome, we generally advise against bringing pets into the main showroom to ensure the safety of delicate electronic displays.

Do you offer bulk pricing for corporate gifting?

Yes, we have a dedicated B2B desk for corporate orders, providing tax invoices (GST) and volume-based discounts.

What is the 'Experience Zone'?

Our flagship stores feature live experience zones where you can test gaming rigs, high-end audio setups, and smart home ecosystems in a real-world environment.

3. Detailed Product Categories

What brands of smartphones are available?

We carry the full range of Apple, Samsung, Google Pixel, OnePlus, Xiaomi, and Vivo products.

Do you sell specialized photography equipment?

Our 'Pro-Photo' section includes DSLRs, Mirrorless cameras, Gimbals, and studio lighting from Sony, Canon, and Nikon.

Are custom-built PCs available?

While we sell pre-built gaming towers, we also provide components like GPUs, RAM, and SSDs for DIY enthusiasts.

Which home appliances do you specialize in?

We offer an extensive range of Air Conditioners, Refrigerators, Washing Machines, and Microwaves from brands like LG, Samsung, Whirlpool, and Daikin.

4. Order & Delivery Logistics

What is 'Express Delivery'?

For select pin codes and products, we offer delivery within 3 hours of placing the order online.

How do I track my heavy appliance delivery?

Once your order is dispatched, you receive a real-time tracking link via SMS. Our logistics team will also call 30 minutes prior to arrival.

Do you deliver to high-rise buildings?

Yes, however, please ensure the elevator is functional for large items like 85-inch TVs or double-door refrigerators. Manual lifting beyond the 2nd floor may incur a nominal labor charge.

Can I change my delivery address after ordering?

Address changes are possible within 2 hours of order placement, provided the new address is within the same city and service zone.

5. Installation & Demo Procedures

Is installation free for all appliances?

Standard installation is usually free for ACs, TVs, and Washing Machines. However, additional materials like extra copper piping or wall brackets are charged as per the brand's rate card.

How soon will the technician arrive after delivery?

Technicians are typically scheduled within 24-48 hours of delivery. You will receive an OTP-based service request via the brand's official portal.

What is covered in a standard demo?

The technician will explain the primary features, connectivity options, maintenance tips, and safety precautions for the appliance.

6. Comprehensive Payment FAQ

Do you accept international credit cards?

We accept international Visa and Mastercard, but they must be enabled for '3D Secure' transactions. Currency conversion rates apply as per your bank.

Can I split payment between two different cards?

Yes, in-store customers can split the total invoice value across multiple payment modes (e.g., half cash, half card).

How does the 'Buy Now, Pay Later' (BNPL) scheme work?

We partner with ZestMoney and LazyPay to offer instant credit at checkout for eligible customers.

Is GST invoicing available for business customers?

Yes, please provide your GSTIN at the time of billing to avail of input tax credit.

7. Returns, Replacements & Dead-on-Arrival (DOA)

What defines a DOA (Dead on Arrival) product?

A product that fails to power on or shows a functional defect within the first 24-48 hours is classified as DOA.

Why can't I return an iPhone once the seal is broken?

As per Apple's global policy, once the activation is triggered, the warranty begins. Any issues post-activation must be handled by Apple Authorized Service Centers.

Can I return a product if I don't like the color?

We generally do not accept returns for 'change of mind' once the box is opened. We encourage customers to view the units in-store before purchase.

What is the process for returning a defective large appliance?

An authorized brand technician must visit and issue a 'Job Sheet' confirming the defect. Once we receive this report, we initiate a replacement.

8. Extended Warranty & Protection Plans

What is the 'ZipCare' or 'Device Care' plan?

These are our proprietary extended warranty plans that cover mechanical and electrical breakdowns after the manufacturer's warranty expires.

Does the plan cover accidental liquid damage?

Standard extended warranties do not. However, we offer premium 'Accidental & Liquid Protection' (ALP) plans for smartphones and laptops.

Is the protection plan transferable?

Yes, if you sell the device, the plan can be transferred to the new owner, adding to the resale value.

9. Loyalty Programs & Gift Cards

How do I earn loyalty points?

Every purchase earns you reward points linked to your mobile number. These can be redeemed as a discount on your next purchase.

Do gift cards have an expiry date?

Our physical and e-gift cards are typically valid for 12 months from the date of issuance.

Can I use multiple gift cards for a single purchase?

Yes, you can stack up to 5 gift cards for a single high-value transaction.

10. Troubleshooting & Basic Technical Support

My new TV has a 'No Signal' error. What should I do?

Check if the HDMI source matches the port used. Often, a simple restart of the Set-Top Box resolves this.

My refrigerator is making a humming sound.

Modern inverter compressors vary their speed, causing a slight hum. If the sound is excessive or clicking, please contact our support.

Why is my laptop battery draining fast?

High-performance settings and background apps often drain batteries. We recommend running a battery health check via our in-store tech desk.

11. Ethical Sourcing & Sustainability

Where do you source your products from?

We source directly from authorized brand distributors and manufacturers to ensure 100% genuine products.

What is your policy on plastic-free packaging?

We are actively transitioning to biodegradable bubble wrap and recycled cardboard for all home deliveries.

12. Legal & Privacy Policies

How do you protect my personal data?

We comply with the Digital Personal Data Protection Act. Your data is encrypted and used only for order processing and service updates.

What are the terms of service for the mobile app?

The app usage is governed by our end-user license agreement, which ensures a safe shopping environment.

Appendix: Terms & Conditions Reference

This document serves as a comprehensive guide to our retail operations. All policies mentioned herein are subject to change without prior notice. For the most updated legal terms, please visit our official website footer under "Terms of Use". Our goal is to ensure 100% customer satisfaction through transparency and efficiency.

Note: Regional variations may apply to certain promotions and delivery timelines. Certain rural areas may have extended delivery windows up to 10 business days.
